NEW QUESTION: 1

You are a project manager working with a cross-functional project team. The project spans multiple years and has 25000 activities owned across these cross-functional teams. The team leads for the functional teams do not want to view activities outside of the ones that they own. They have asked you to find a way for them to only see their activities.

Identify three P6 EPPM features that would help you respond to this requirement.

- A. Create project activity code for teams. Values = team names.
- B. Create an activity view for each team, filtering on team owned activities.
- C. Group and sort by generic resource within an activity view.
- D. Create filters built on project activity code. Values = team names.
- E. Create a generic resource for each team, and assign to each owned activity.
- F. Group and sort by project activity code within the common activity view.

Answer: A,B,E

Explanation:

Note:

*Activity codes help to sort, filter, and group activities.

*If you mainly work in one project, then it can be helpful to filter by project by default.
