### **NEW QUESTION: 1**

What is accomplished in the identification phase of incident handling?

- A. determining the responsible user
- B. defining the limits of your authority related to a security event
- C. determining that a security event has occurred
- D. identifying source and destination IP addresses

**Answer: C**

Explanation:

From Cisco SECOPS Elearning course Identification phase is referenced as 'Identification: The SOC analyst performs continuous monitoring, and active cyber threat hunting. When a true positive incident has been detected, the incident response team is activated. During the investigation process, the SOC analyst or the incident response team may also contact the CERT/CC (or other security intelligence sources), which tracks Internet security activity and has the most current threat information.'

### **NEW QUESTION: 2**

- A. Option A
- B. Option C
- C. Option E
