NEW QUESTION: 1

A technician is on the phone with a software vendor and needs to fix an issue. The vendor asks specific information regarding a patient's file. Which of the following describes what should happen NEXT?

- A.** The technician should have the last MD who worked on this file grant permission for the vendor to access the information.
- B.** The technician should have the PM give the information to the vendor.
- C.** The technician should not give the vendor any specific data since the vendor already has access to needed data.
- D.** The technician should give the vendor the information needed if a signed BAA is in place.

Answer: C

NEW QUESTION: 2

An organization is migrating from an on-premises Exchange organization to Office 365 tenant. Users report that they cannot see the free/busy information for other users.

You need to determine why free/busy information does not display.

Which two Windows PowerShell cmdlets should you run? Each correct answer presents a complete solution.

- A.** Get-SharingPolicy
- B.** Get-OrganizationRelationship
- C.** Get-IntraOrganizationConnector
- D.** Get-CsMeetingConfiguration
- E.** Get-CsClientPolicy

Answer: B,E

Explanation:

A: Problem: Free/busy information can't be retrieved from one environment Users can't access free/busy information through Exchange federation in one direction only.

To display the trust information that is currently set up for the default Office 365 domain, run the following command:

```
Get-OrganizationRelationship | FL
```

B: If the free/busy problem persists, make sure that the sharing policies in the on-premises Exchange Server environment and in Exchange Online match. To determine this, run the following command in the Exchange ManagementShell, and then note the value in the Domains field in the results:

```
Get-SharingPolicy | FL
```
