-- Exhibit -

After reading this excerpt, when might a reader go back to it for inspiration and guidance?

- A. wants to learn about the habits of mice

- B. has the opportunity to help another
- C. feels the need to tidy up the house
- D. is facing the consequences of an illegal act
- E. is considering becoming a pet owner

Answer: B

NEW QUESTION: 4

A Windows Communication Foundation (WCF) solution exposes the following contract over an HTTP connection.

```
[ServiceContract] public interface IDataService {  
    [OperationContract] string GetData(); }  
}
```

Existing clients are making blocking calls to GetData.

Calls to GetData take five seconds to complete. You need to allow new clients to issue non-blocking calls to get the data, without breaking any existing clients. What should you do?

A. Replace the service interface with the following interface and implement the new methods.

```
[ServiceContract]  
public interface IDoSomething  
{  
    [OperationContract]  
    string DoLongOperation();  
    [OperationContract(AsyncPattern = true)]  
    IAsyncResult BeginDoLongOperation();  
    [OperationContract(AsyncPattern = true)]  
    string EndDoLongOperation(IAsyncResult result);  
}
```

B. Replace the service interface with the following interface and implement the new methods.

```
[ServiceContract]  
public interface IDoSomething  
{  
    [OperationContract(AsyncPattern = true)]  
    IAsyncResult BeginDoLongOperation();  
    [OperationContract(AsyncPattern = true)]  
    string EndDoLongOperation(IAsyncResult result);  
}
```

C. Generate a proxy class with asynchronous methods and use it for the new clients.

D. Add a new endpoint to the service that uses a full-duplex binding and use it for the new clients.

Answer: C
