Our EX436 : Red Hat Certified Specialist in High Availability Clustering exam actual questions & answers will get updated from time to time to guarantee that customers can handle the exam more confidently and easily.

Success With Money Back Guarantee For EX436.

NEW QUESTION: 1

Refer to the exhibit.

Which system tab can be used to add video infrastructure devices and endpoints?

- A. System Overview
- B. Configuration Templates
- C. Provisioning
- D. Administrative Tools
- E. Navigator

Answer: E

Explanation:

Explanation/Reference:

Explanation:

Section 1 - Basic Endpoint configuration

Step 1 - Prior to setting up the traversal zone you will need to get all of your endpoints registered to your video network. There are several ways to do this for simplicity we will walk you through just one option.

a. On your lab laptop open a web browser and navigate to your Telepresence Management Suite (TMS) instance at: <http://tms.collab.com/tms> b. Login as

Figure 1 TMS Login

Step 2 - Navigate to Systems → Navigator (Figure 1)

Step 3 - Click the "Endpoints" folder on the left side of the window and click "add systems" as depicted below in Figure 2

Figure 2 Adding Endpoints

Step 4 - Enter the IP address of your C60, and the EX60 that is not registered to CUCM into the Specify Systems text field, separating each with a comma as depicted in Figure 3 below.

- Make sure that you: Leave the ISDN and IP zones "Collab Demo"

- Ensure that the time zone is set to "Eastern"

- You can find the IP address of your EX60s via the system information screen on the touch panel.

- For the C60 press the home key then the far right smart button to bring up your System information screen.

Figure 3 Adding Endpoints to TMS

Step 5 - Click next, a progress window will appear as TMS reaches out to each endpoint. Once completed you see the "Add Result" screen showing that the endpoints were successfully discovered.

Step 6 - Finally click "Finish Adding Systems" as depicted in Figure 4.

NOTE: If your endpoints throw warnings click the check box next to them to view and correct the warnings or click "Add system despite Warnings" if available

NEW QUESTION: 2

Universal Containers uses web-to-case to convert support requests submitted through its website into cases.

The support team would like Salesforce to automatically send an email containing password reset instructions to the customer when the case subject contains the words "forgot" and "password".

What does the administrator need to configure to meet this requirement?

A. Support settings

B. Validation rule

C. Email-to-case

D. Auto-response rule

Answer: D

NEW QUESTION: 3

A restaurant reservation application needs to access a waiting list.

When a customer tries to reserve a table, and none are available, the customer application will put the user on the waiting list, and the application will notify the customer when a table becomes free.

The waiting list must preserve the order in which customers were added to the waiting list.

Which service should the solutions architect recommend to store this waiting list?

A. AWS Step Functions invoking AWS Lambda functions

B. A FIFO queue in Amazon Simple Queue Service (Amazon SQS)

C. A standard queue in Amazon Simple Queue Service (Amazon SQS)

D. Amazon Simple Notification Service (Amazon SNS)

Answer: B

NEW QUESTION: 4
