Also after you buy you will have priority to get our holiday discount **Related C-S4FTR-1909 Certifications** or sale coupon, Ensure Your Certification With Amazing Scores It is no use of wasting money on unreliable study sources.

Hope your journey to success is full of joy by using our SAP Certified Application Associate practice training and go through a phenomenal experience, We are still researching on adding more useful buttons on our C-S4FTR-1909 test answers.

Abundant kinds of exam materials to satisfy different studying habit, It is quite convenient to study with our C-S4FTR-1909 study materials, Our products will help you overcome your laziness.

The high pass rate of our C-S4FTR-1909 exam guide is not only a reflection of the quality of our learning materials, but also shows the professionalism and authority of our expert team on C-S4FTR-1909 practice engine.

And our C-S4FTR-1909 study guide can renew your knowledge with high utility with favorable prices, I believe that after you try C-S4FTR-1909 training engine, you will love them.

#### **NEW QUESTION: 1**

##### Overview

You are a database administrator for a company named Litware, Inc.

Litware is a book publishing house. Litware has a main office and a branch office.

You are designing the database infrastructure to support a new web-based application that is being developed.

The web application will be accessed at [www.litwareinc.com](http://www.litwareinc.com). Both internal employees and external partners will use the application.

You have an existing desktop application that uses a SQL Server 2008 database named App1\_DB.

App1\_DB will remain in production.

##### Requirements

##### Planned Changes

You plan to deploy a SQL Server 2014 instance that will contain two databases named Database1 and Database2.

All database files will be stored in a highly available SAN.

Database1 will contain two tables named Orders and OrderDetails.

Database1 will also contain a stored procedure named usp\_UpdateOrderDetails.

The stored procedure is used to update order information. The stored procedure queries the Orders table twice each time the procedure executes.

The rows returned from the first query must be returned on the second query unchanged along with any rows added to the table between the two read operations.

Database1 will contain several queries that access data in the Database2 tables.

Database2 will contain a table named Inventory.

Inventory will contain over 100 GB of data.

The Inventory table will have two indexes: a clustered index on the primary key and a nonclustered index.

The column that is used as the primary key will use the identity property.

Database2 will contain a stored procedure named usp\_UpdateInventory.

usp\_UpdateInventory will manipulate a table that contains a self-join that has an unlimited number of hierarchies. All data in Database2 is recreated each day and does not change until the next data creation process. Data from Database2 will be accessed periodically by an external application named Application1. The data from Database2 will be sent to a database named Appl\_Dbl as soon as changes occur to the data in Database2. Litware plans to use offsite storage for all SQL Server 2014 backups.

Business Requirements

You have the following requirements:

Costs for new licenses must be minimized.

Private information that is accessed by Application must be stored in a secure format.

Development effort must be minimized whenever possible.

The storage requirements for databases must be minimized.

System administrators must be able to run real-time reports on disk usage.

The databases must be available if the SQL Server service fails.

Database administrators must receive a detailed report that contains allocation errors and data

corruption.

Application developers must be denied direct access to the database tables. Applications must be

denied direct access to the tables.

You must encrypt the backup files to meet regulatory compliance requirements.

The encryption strategy must minimize changes to the databases and to the applications.

You need to recommend a solution to improve the performance of usp\_UpdateInventory.

The solution must minimize the amount of development effort. What should you include in the recommendation?

**A.** A subquery

**B.** A common table expression

**C.** A cursor

**D.** A table variable

**Answer: D**

Explanation:

Explanation/Reference:

Explanation:

- Scenario: Database2 will contain a stored procedure named usp\_UpdateInventory.

Usp\_UpdateInventory will manipulate a table that contains a self-join that has an unlimited number of hierarchies.

- A table variable can be very useful to store temporary data and return the data in the table format.

- Example: The following example uses a self-join to find the products that are supplied by more than one vendor. Because this query involves a join of the ProductVendor table with

itself, the ProductVendor table appears in two roles. To distinguish these roles, you must give the ProductVendor table two different aliases (pv1 and pv2) in the FROM clause. These aliases are used to qualify the column names in the rest of the query. This is an example of the self-join Transact-SQL statement:

Incorrect Answers:

B: Using a CTE offers the advantages of improved readability and ease in maintenance of complex queries. The query can be divided into separate, simple, logical building blocks. These simple blocks can then be used to build more complex, interim CTEs until the final result set is generated

### NEW QUESTION: 2

フランクは、メンフィスの中規模の法律事務所で働くネットワーク技術者です。フランクと他の2人のIT従業員は、会社のすべての技術的ニーズに対応します。同社のパートナーは、従業員がネットワークケーブルに縛られることなく自由に動き回れるように、安全なワイヤレスネットワークをオフィスに実装することを求めています。フランクと彼の同僚は有線イーサネットテクノロジー802.3に精通していますが、ビジネス環境でワイヤレスをセットアップする方法には精通していません。フランクと他のIT従業員がワイヤレスに慣れるには、どのIEEE標準に従う必要がありますか？

- A. フランクと他のIT従業員は、802.1標準に従う必要があります。
- B. 802.11標準に従う必要があります
- C. 802.7はワイヤレス規格をカバーしているため、従う必要があります
- D. ワイヤレスを対象とするIEEE標準は802.9であり、これに従う必要があります。

**Answer: B**

### NEW QUESTION: 3

- A. FireWire 800
- B. DVI
- C. Gigabit Ethernet
- D. Thunderbolt

**Answer: B**

Explanation:

Explanation/Reference:

DVI output using Mini DisplayPort to DVI Adapter (sold separately)

Comes with:

MagSafe power port

Gigabit Ethernet port

FireWire 800 port (up to 800 Mbps)

Two USB 3 ports (up to 5 Gbps)

Thunderbolt port (up to 10 Gbps)

Headphone port SDXC card slot

Kensington lock slot

8x SuperDrive
