Entering the policy group command places the router in webvpn group policy configuration mode. After it is configured, the group policy is attached to the SSL VPN context configuration by configuring the default-group-policy command.

The following tasks are accomplished in this configuration:

The presentation of the SSL VPN portal page is configured.

A NetBIOS server list is referenced.

A port-forwarding list is referenced.

The idle and session timers are configured.

A URL list is referenced.
